Help Yourself to These Exceptional Fall Values!

An Open Letter—

To Old Customers—

THE orders you have sent us, the letters of approval of our service you have written us, and the business that has come through your recommendations are greatly appreciated. They are also an inspiration to us to improve our product and service. We thank you.

You are, of course, entitled to take full advantage of all the special values and "Get Acquainted Offers" in this bulletin. To you they may be justly called "Customer Bargains" or "Profit Sharing Offers." We say "may" because we do not know your needs or wants in sizes and varieties.

NEOSHO FAIR DEALING INSURES GROWING SATISFACTION

PRICES VERSUS VALUE—Certain articles have been standardized in value and are bought and sold by name or by trade-mark. You can recognize the package and know the price.

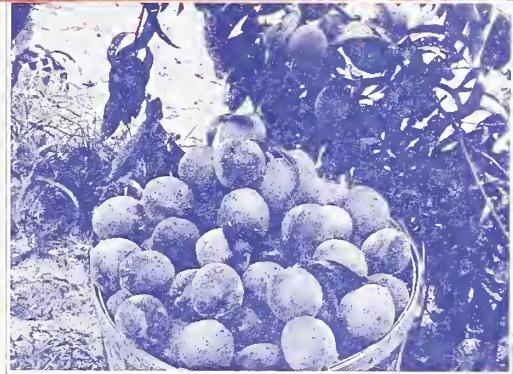

But with nursery stock it is difficult. No two varieties of the same kind are alike in habits of growth. A crimson Spirea 18 to 24 in. compares favorably with a 3 to 4 ft. Spirea Van Houttei. Common Lilac is readily grown with a number of canes, but it is impossible to grow budded Lilac with several branches in the same period of time.

So here is a product where you must trust the people from whom you buy to give you full value for your money. Of this you may be sure—the value will not be there unless the nursery takes particular pains to preserve vitality. The price won't furnish any proof of worth. You can only discover worth by actual trial.

STANDARDS OF VALUE—It is impossible to describe vitality and trueness-to-name. However, certain standards of value have been

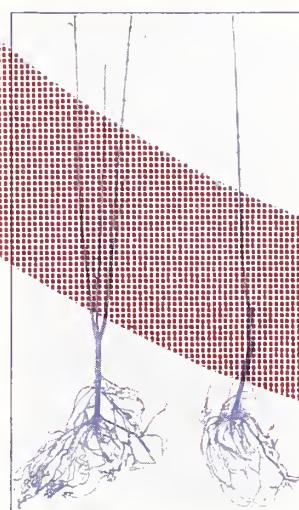

To Inquiring Friends—

Many tell or write us that our catalog is "most interesting," "artistic," "informative," "sincere," "helpful." It naturally follows that our stock and service must be equally good and dependable. A trial will convince you. You will be agreeably surprised at the values you receive. Furthermore, there is the additional advantage you will gain by finding out by experience where to secure good stock and valuable information. So don't delay but send us your orders now for shipment when you want them, whether spring or fall.

From a Neosho Orchard

Grow luscious peaches like these from the orchard of the B. E. Smith Land & Lumber Company at Alexandria, La. These trees were from the Neosho Nurseries and planted in 1921. This customer still orders Neosho trees.

Here are two plants of California Privet. Both are 12 to 18 inches in height. Obviously those with three canes up, such as we furnish, will make a good hedge much sooner than plants with fewer canes.

adopted by the American Association of Nurserymen.

For instance, fruit trees, except 1 yr. apple, are graded by diameter of the trunks two inches above the crown. Shrubs and Privets are sorted and sold by certain heights and number of branches or canes. The 700 members of the American Association of Nurserymen use these standards when dealing with each other, but still a few of them deal with the consumer in that way. We have graded and sold our fruit trees, including 1 yr. apples by diameter for ten years and our customers like it. They see that what is left after pruning the tops when transplanted is the part that counts for successful growth. When you order our trees, 1/2 in. up diameter, you receive the top size in 1 yr. apple. Some varieties will run as large as 11/16 in. in our nursery in one growing season.

Again if you order 12 to 18 in. privet from us, you will receive plants with 3 canes or more. Obviously, such plants will make a better hedge than plants with only one cane.

Neosho Fall Bargains!

These Get Acquainted Offers Bring Real Savings

ONE glance at the special prices listed below will quickly convince you that here indeed is a rare opportunity to secure desirable nursery stock at a real saving. Everything listed in this folder is of first quality. The low prices are offered you because we know that one order from you will bring us many future sales. You'll be surprised at the size and sturdiness of the stock offered here. The varieties are exceptionally dependable. Order now for shipment this fall or next spring. However, these bargain prices are open only until November 30th—subject to prior sale—cash with order.

Grow Your
Own Delicious
Peaches

It is not at all hard to have fine, abundant bearing peach trees like this one on J. L. Taylor's farm at Chanute, Kansas. He is another one of the thousands of satisfied Neosho customers.

"I purchased many of the trees I planted on my own farm from the Neosho Nursery, and got wonderful results. Especially, just now, we have a five-acre cherry orchard, two years old, with a growth as uniform and vigorous as any I have ever seen. I think every tree lived and they are making a very fine growth. I also bought plum and peach trees from the Neosho Nursery with like results."—J. S. Malone, County Agent.

"The year 1927 I bought and set out one thousand (1000) Elberta peach trees from the Neosho Nurseries Company. They came in fine shape, well packed, and this spring 1928 I found in checking my live trees there were but six or eight dead or missing trees. They made a good growth and look healthy. This spring I bought and planted 1000 grape vines and at this date there is not one dead one in the vineyard, all are growing fine."—O. V. Mogel.

RICHARED The Delicious Supreme

Richared Delicious Apples are a distinct variation, possessing all the good qualities of flavor, texture, size and shape of the popular Delicious, to which is added a rich, solid, double-red color which greatly increases its attractive-ness and market value.

Richared is solid red and is not striped like the ordinary Delicious. Practically all apples on Richared trees "color extra fancy." The Richared colors early and are rich red before it ripens and fully two weeks ahead of the common Delicious is ready to be picked and go to the highest market.

On account of being able to pick early, while the apples are a hard ripe, the Richared is a long keeper and may be kept in cold storage until the following summer.

More extra fancy grade—early picking—firmer apples—no loss from wind-falls—and long storage are the profit features of this variety. Richared Delicious is now bearing on third generation trees and they are identical with the parent tree.

PRICES OF RICHARED DELICIOUS

Diameter	Height	Each	5	25	50	100	250
1/2 in. up	4 ft. up	\$1.40	\$1.20	\$1.00	\$0.90	\$0.80	\$0.70
5/8-1 1/2 in.	3 ft. up	1.25	1.00	.90	.80	.70	.60
1 1/2-2 1/2 in.	2 ft. up	1.00	.75	.70	.65	.60	.50

Purchasers are required to sign an agreement not to sell or give away or dispose of any buds or scions from these trees.

E. C. BOOTH, Publisher of The Standard Poultry Journal, Says:

My order arrived in the very best possible condition—My satisfaction has been growing ever since I started buying of you—three years ago. Signed—E. C. Booth
Address—Pub. Standard Poultry Journal Pleasant Hill, Mo.
Pleasant Hill, Mo.
June 4, 1928.

"My satisfaction has been growing every since I started buying of you—three years ago." Read his card shown at the left. It is one of the return post-cards we mail attached to another card to insure our customers getting their orders satisfactorily. "Better than I expected" is the reply that is most numerous.

Act Now for Growing Satisfaction!

Our Catalog—FREE!

WE WANT everyone to have a copy of this beautiful book, which customers say is the finest, best illustrated and most helpful they have ever received. More than a catalog—a guide to successful growing—Send in your name if you haven't received a copy—

Every Bush and Shrub Lived

"This shrubbery which I ordered came in promptly and in splendid shape and every bush and shrub lived and is thriving well and I am very much pleased with the shrubbery."—B. B. Foster, Bartlesville, Okla.

Best and Cheapest

"This is conclusive proof of the thriftiness of your stock, and wish to add another thought: we were given the best service, and the best packed trees, the cheapest trees laid down at our station, and in every way pleased more with your stock than any nursery we have ever had any dealings with."—E. E. Evans, Illinois.

Our Most Popular Novelty—Neosho Five-in-one Apple PLANT ONE IN YOUR YARD

WE HAVE a limited number of apple trees with from 3 to 5 different varieties budded or grafted on as many different branches.

These varieties ripen from early summer to late fall—Duchess, Wealthy, Grimes Golden, Jonathan and Delicious—all dependable high grade apples.

You can imagine what a beautiful sight one of these trees will present in bearing.

The only pruning you will need to do is to cut back the side branches about one-half their length, and shorten any roots that are too long.

The white bands around branches in photograph at left indicate where limbs should be cut off when planted.

The top branch and trunk is the Delicious, the other branches are labeled.

These trees are three years old with trunks 1 1/16, 3/4 and 1 inch or more thick.

Only \$2.00 Each

Novelty Apple \$1.75
with FOUR Varieties.

Novelty Apple \$1.50
with THREE Varieties.

Home of W. Gardner Huzen, Rye, N. Y.

Flowers are very appropriate and effective when planted and arranged like this in front of some houses. Your place can be made beautiful, too, with thrifty Neosho shrubs, bulbs and roses, evergreens, trees, vines, etc.

LANDSCAPE PLANS.

Except in cases where personal visits to the property are required, it costs only two dollars for our sketch or plan with list and cost of plant materials that we suggest, and this deposit is refunded when the stock is ordered from us. Let us show you what can be accomplished at surprisingly little expense.

Seven Years of Service

"If I am not mistaken, this makes fifteen thousand trees I have bought of you in 7 years. Our dealings have been so satisfactory that it has been a pleasure to mention the Neosho Nursery to my friends." Mr. E. T. Russell, Tennessee.

Best in 30 Years

"I have been planting trees for 30 years but the 200 trees I got from you one year ago last spring made the best growth of any I ever planted. Did not lose one tree."—A. Wm. Gerber, Kansas.

OVER 40% of our sales come from old customers—satisfied buyers of quality Neosho products. That's why we offer these worthy bargains. We know one purchase from Neosho will quickly convince you that here you are assured full value for every dollar. Select what you want in fruit trees, shrubs, roses, bulbs, etc., now and take advantage of these special prices. Shipment can be made this fall or spring, 1929, but order for these offers must be mailed by November 30th.

"It Is Not a Home Until It Is Planted"

IN SOME communities trees and shrubs abound. Planting and gardening is generally and beautifully carried on. It is the custom—the thing to do.

In other communities there is a bareness and austerity that is depressing.

Add both value and attractiveness to your place by planting this fall, or spring of 1929.

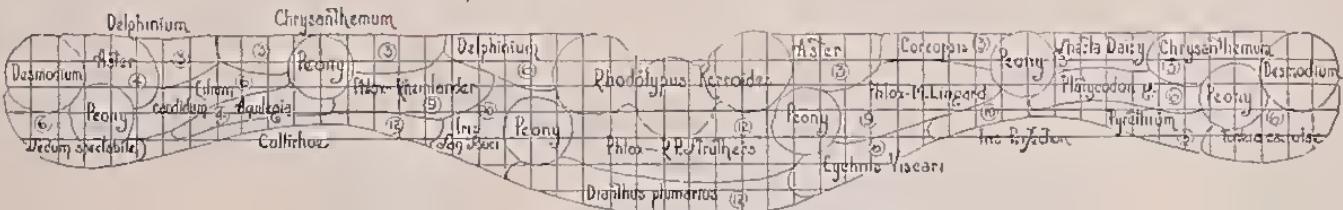

EVERYTHING in the garden and yard is interdependent and should be harmonized in line and mass so as to appeal to the eye as a whole. The object is to have the entire property present a pleasing picture. Then observers will say, "What a beautiful home!" rather than "What a beautiful shrub (or tree)" or "What lovely flowers."

Three diagrams which illustrate the outline and arrangement of shrubs and perennials to produce harmonious effects in height and colors and in season of bloom are shown here. (Each square equals one foot.)

Some prefer to let us design their plantings for them, and it is indeed a great pleasure to serve people who appreciate that the beautifying of home grounds, parks, etc., is a fine art ranking with painting and sculpture. They recognize that the ability to create beautiful harmonious effects can only be acquired by study of the principles of Landscape Architecture and by knowledge of the characteristics of plant materials plus good taste.

Last season our landscape service was used by customers in seventeen different states.

NEOSHO SERVICE

Means Growing Satisfaction

Here are Some of the Ways We Have Rendered Our Customers Neosho Service—We're Waiting to Serve You!

LAST spring a customer gave us a nice order for fruit trees saying, "Perhaps you recall telling me a couple of years ago to postpone planting fruit trees on my newly cleared land because of danger of loss from root-rot."

An order came from Oklahoma for 50 Baldwin apple trees. We told the customer this is a northern variety and would not be likely to give satisfaction, but we could supply them if he wished to take the risk. He changed his order to varieties of proven value in his district.

Mr. Mullens of Missouri planted 350 of our trees three years ago. His neighbor laughed at him for paying more than the neighbor did for trees purchased elsewhere. Today he has a fine orchard while his neighbor is a booster for Neosho stock.

An Arkansas customer sent us an order for 1000 peach trees 1 yr. 11/16-inch, 5 to 7-ft. We wrote him to let us send him 9/16 to 11/16 and to cut back the tops to two feet. He was highly pleased with the stock and has since shown his appreciation of our consideration for his interest by further orders for his friends as well as for himself.

L. C. Beirne of Kentucky wrote us about his J. H. Hale peaches from 1000 of our trees: "I have letters from everyone to whom I shipped singing their praises. People here think I am quite a fruit man, but the truth is, 'Inside Facts' has been my daily guide and I credit you with the success I have made."

NOTE—Instead of our "Inside Facts of Profitable Fruit Growing" we now supply at 15c per copy, "Grow Your Own Fruit," which is a big help in growing fruit. It contains 84 pages and over 120 illustrations.

A GENTLEMAN from a near-by city called late last spring to buy some shrubs and trees for his home, but had no idea of what varieties to use nor how to arrange them. Fortunately he had some pictures of the house and could give us the data we needed. So we made him a rough plan and furnished the plant material required. We even pruned each shrub ready for planting. He reports excellent results.

A lady wanted to use crimson Spirea at the corners of her house and Spirea Van Houttei under the windows, until we pointed out that the habits of growth of these shrubs make this arrangement out of harmony.

Another customer planned to use the Butterfly Bush at the corners of the entrance, but quickly grasped our suggestion to place it in a less conspicuous place since its foliage is not attractive seen close at hand and it dies to the ground in winter.

"Your drawing and suggestions for the planting of my place have been duly received, and to say that I am pleased with the attention that you have given me is putting it mildly. It was through the kind offices of Mr. Fred Sloan of this place that I got in touch with your firm.

"Mr. Sloan owns a 13,000 acre apple and peach orchard here and has repeatedly told me that his best trees were purchased from your firm."—John W. Jackson, Alleghany Co., Maryland.

"Your shrubbery and trees supplied last April proved to be very satisfactory with exception of the raspberry bushes and one cherry tree. These failures I do not attribute to you since the other stock was 100 per cent good and beyond my expectations."—John W. Jackson, Alleghany Co., Maryland.

This is the beautiful home of H. A. Wangerian, Santa Fe, N. M. He writes: "Practically everything was furnished by you to my entire satisfaction."

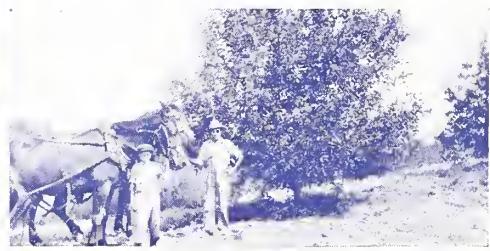

...OK...

This is a photo of Mr. and Mrs. C. L. Dickson, Nevada, Mo., who write: "Planted 500 Neosho trees spring '26 and 500 in fall '26. Lost only 4 out of the 1000. Nicest lot of trees I ever saw."

This is a view at Reed's Lodge, owned by Frank Reed of Neosho, Mo. This beautiful place was planted with Neosho stock. Let us help you beautify and develop your own grounds.

This Jonathan apple tree is owned by Chas. Robbins, who lives near McElhaney, Mo. It was a 1 yr. 7/16-in. tree when planted and was only 7 years old when this photo was taken this summer.

This photo from W. P. Murray, Michigan, who writes: "Your last shipment came through a good bunch of trees. All have made a good growth." He has bought our trees for 7 years.

This is a photo of Mr. and Mrs. C. L. Dickson, Nevada, Mo., who write: "Planted 500 Neosho trees spring '26 and 500 in fall '26. Lost only 4 out of the 1000. Nicest lot of trees I ever saw."

This is a sectional view of Oakmont Orchard, owned by R. S. Hommel, Knoxville, Tenn. He wrote us: "Your trees have always been very satisfactory."
